Change to black

R18-R19: chain 1, sc in each stitch. join rounds with a slip stitch (12)

Change to green

R20: chain 1, sc in each stitch. join rounds with a slip stitch (12)

Repeat entire thing for second leg

BODY

R21: On the last leg made chain three, then slip stitch to the other leg. Place a marker on the place where you slipped stitched. sc around the leg (12 single crochets) then sc in each stitch of the chain (3 sc), next single crochet around the second leg (12 single crochets), finally sc in each stitch on the opposite side of the chain (3 single crochets). All together you should have 30 SC

R22-R28: place one single crochet in each stitch of the round. Because you are not joining with a slip stitch be sure to move the marker each time so you know where the row starts. (30)

RD 29: At this row you will be joining the arms. First you will want to stuff the arms, then you will use a tapestry needle to whip stitch the arms onto the body. Now you can continue your body

RD30-35: SC in each stitch (30)

Now it's time to make the eye

EYE

Before putting the top of the head on, make and attach the eye.

With black

R1: Magic circle 5

With white

R2: 2 SC in each stitch (10)

R3: *Sc, 2sc in next* continue pattern (15)

Tie off

Sew the eye onto your monster, add a mouth.

TOP

For the top you will be making a rectangle, attaching hair to it, then sewing it onto the body.

Chain 16

R1: SC in the second chain from the hook, and in each stitch (15)

R2-3 SC in the second chain from the hook, and in each stitch (15)

Now you need to add the hair. Insert your hook into a stitch. Pull through a three strands of yarn a few inches long, leave a loop. Pull the ends through the loop. Do this until the hair is to your liking.

Attach the top to the top of the head and enjoy your handiwork!
